Sybit and your week is purple!

At Sybit, there is no gray everyday life, no gobbledygook that promises you the moon. Our passion is customer experience. Based on SAP Customer Experience Solutions, we create digital worlds of experience that people talk about and that inspire our customers. We love challenging projects. Is that what you want too? No buzzword bingo, but technically challenging and always with the pulse of the times. We are curious about you! Come and join our team!

ABSL Developer SAP CX CRM (all genders)

Site: Radolfzell / Offenbach / Hannover / Bielefeld / Home-Office (Germany)

Your tasks

- Within an agile project team you develop SAP CX solutions
- You create technical concepts for demanding system environments and develop web applications
- You analyze customer requirements, design custom-fit solutions and implement them in dialog with the customer
- You are jointly responsible for architecture decisions, the delivery of the software as well as the adherence to quality standards
- You develop solution concepts for the connection to SAP and third-party systems and implement them in the team

Your talent

- You are an expert in the development of software solutions based on SAP CX solutions (Cloud for Customer, CRM)
- Ideally you have experience in the CRM environment and are familiar with ABSL (optionally also ABAP)
- You are confident, convincing and a strong communicator - both in German and English
- You are enthusiastic about new technology and future trends such as Industry 4.0, IoT and PaaS
- Software development is your business: You work independently as part of an agile team and enjoy customer contact
